

Non-equilibrium and comparative advantage in South-North Research Partnership

Bassirou Bonfoh
Centre Suisse de Recherche Scientifique en Côte d'Ivoire

„One health“ approach

No single discipline, actor can tackle the global change challenges

11 Principles

1. **Objectives** → ???
2. **Trust** → Data, account
3. **Share info, networks** → One way
4. **Responsibility** → ???
5. **Transparency** → budget, data use, material
6. **Monitoring & evaluation** → ???
7. **Results dissemination** → Authorship
8. **Apply results** → If 3rd party (NGO)
9. **Share profits** → depends on institution
10. **Research capacity** → depends on cooperation
11. **Build on achievements** → ???

Relevant aspects

- Capacity developement +++
- Co-funding: dominant North funds
- Level of mutual understanding
 - Judgment
 - Research term and agreements
 - Type of research (Applied science vs Adaptative)
 - Actor involvement (individual, institutions
→ recommendation letter
 - Level of problems (Global vision vs Local vision (basic problems)
- Curricula (methods, concepts, models)
- Flexibility
