

# Research Partnership with Developing Countries:

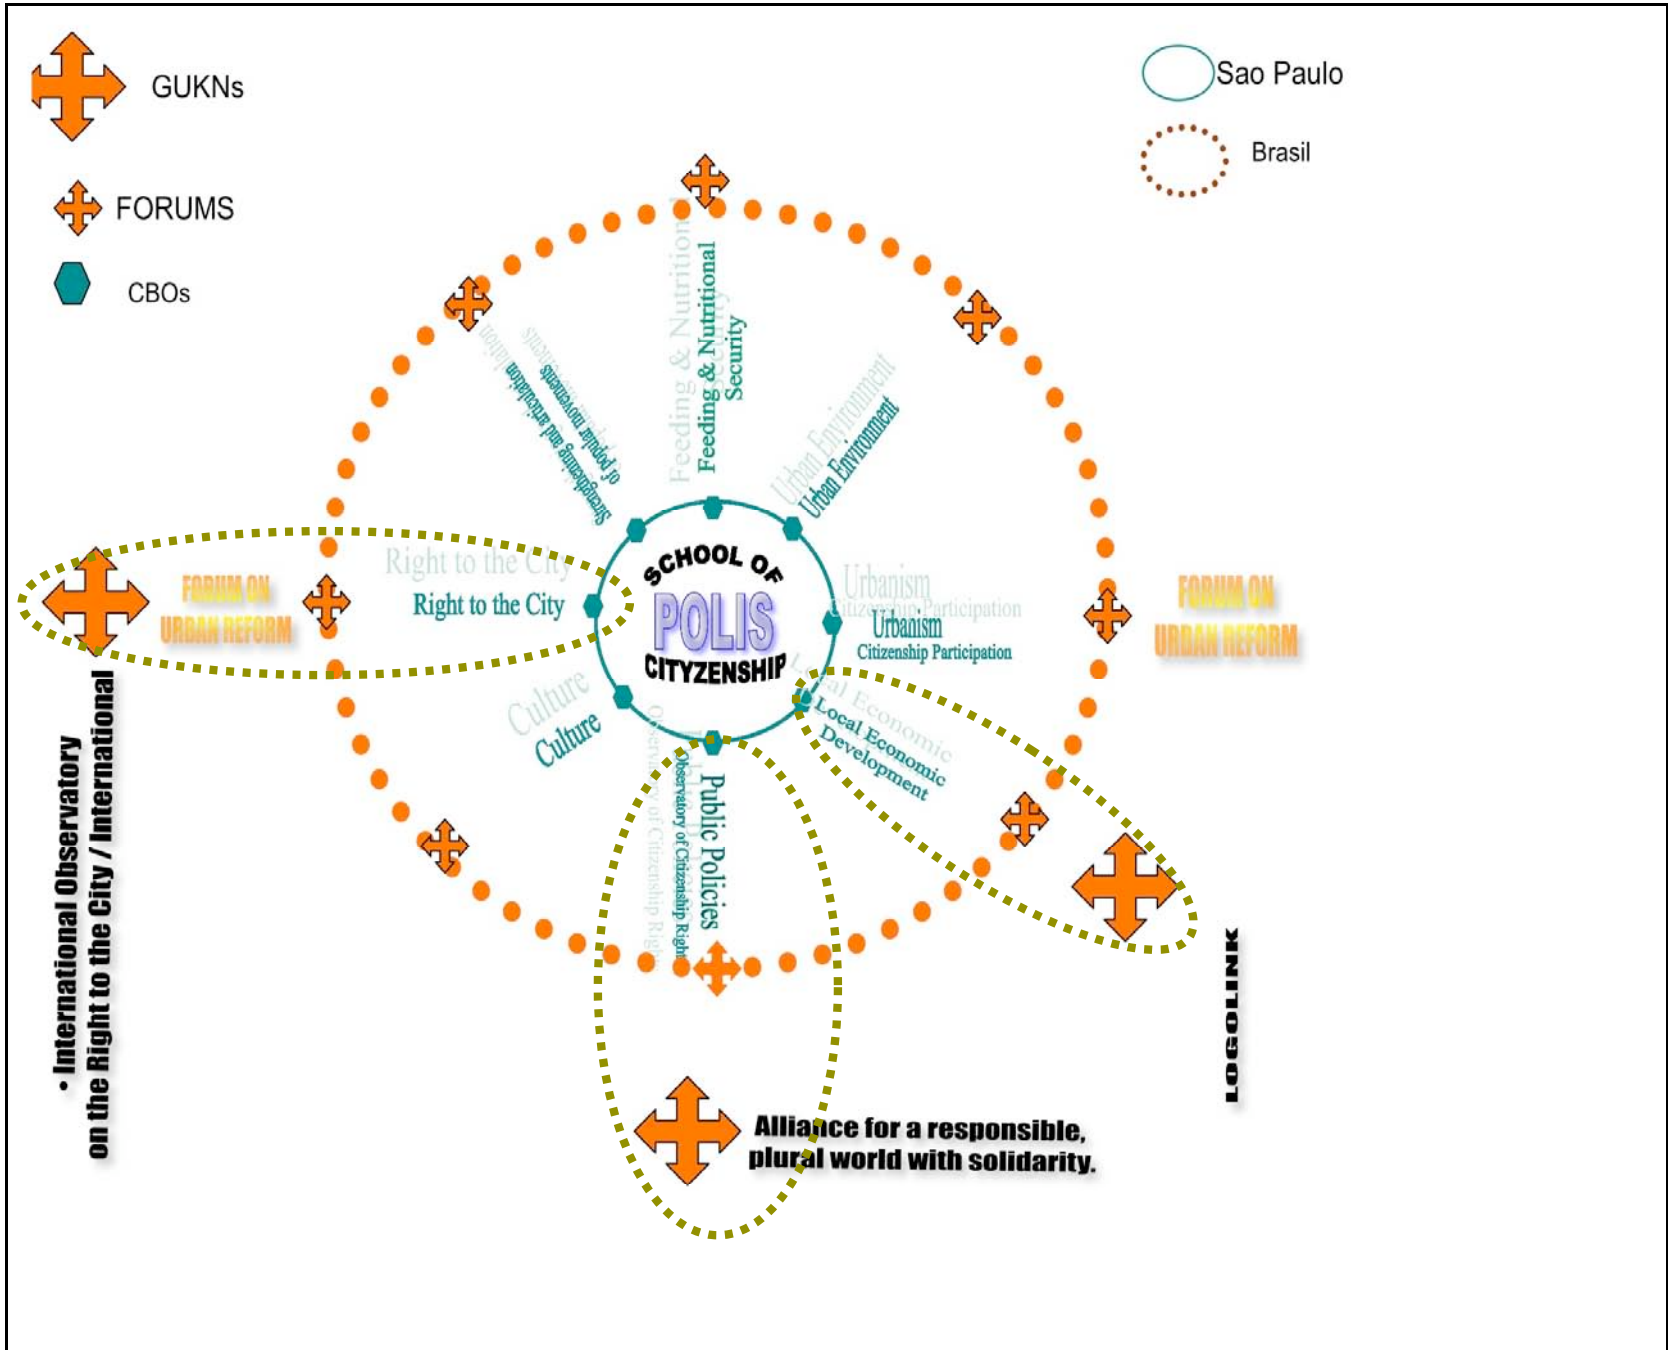

A revision of the eleven  
**Research Partnership Principles**  
in the light of lessons learned from an analysis  
of POLIS

Marian Pérez

# Instituto PÓLIS:

Institute for Social Policies Studies, Training and Advisory

- POLIS, is a Brazilian NGO of national coverage, constituted as a non profit civil association, pluralist, of educational, cultural and social assistance character.
- **Its identity** is defined by: **the city** and by its **field of work** on **public policies** and on **local development**.
- Its objective is to contribute to improve the quality of life, the sustainable development, the broadening of citizenship rights and the democratization of society.

# Research Partnership with Developing Countries

Scholars

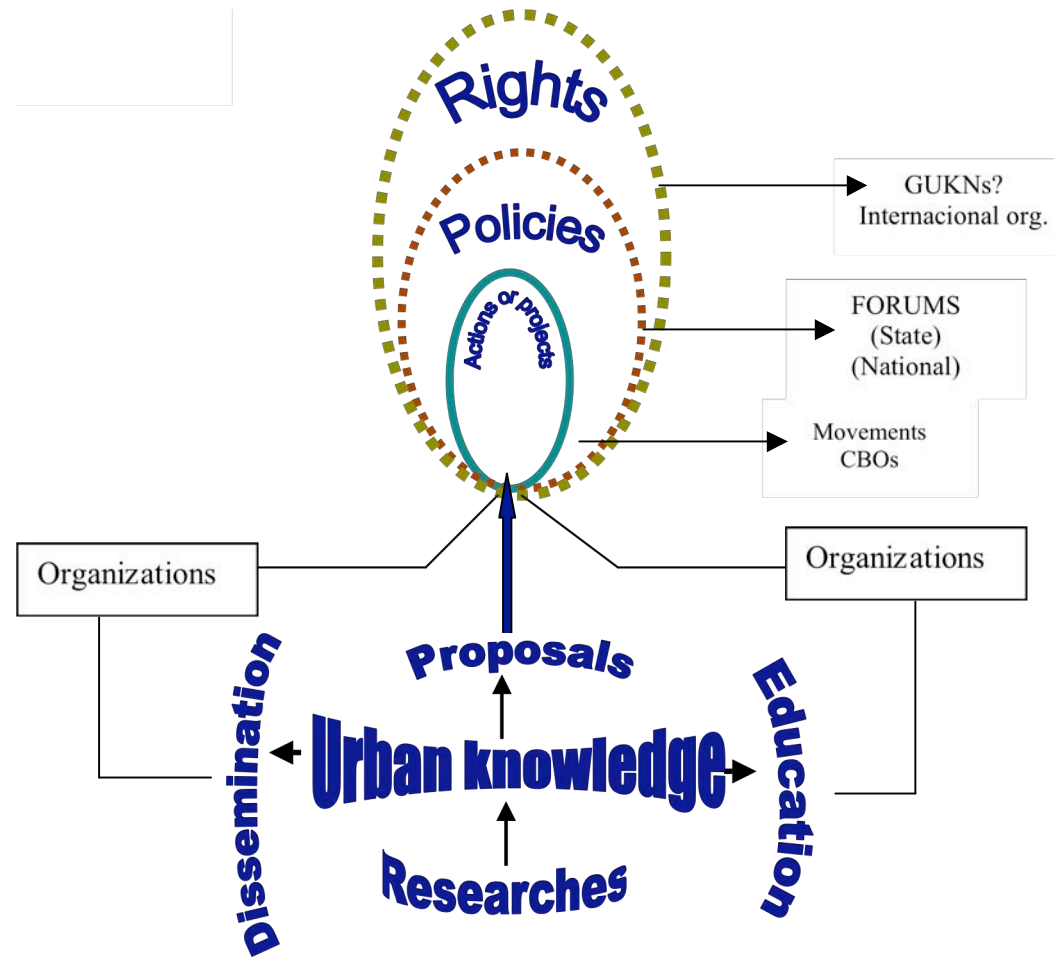

**Knowledge**

on crucial issues (factors?)  
With impact on  
public policies,  
and living conditions

Policy  
makers

Social  
groups

# Vertical approach to knowledge

Understanding of the needed **vertical integration of knowledge** in order to transform reality

# The eleven principles of KFPE

## Partnership:

 Trust (2)

- shared responsibility (4)
- transparency (5)

## Increase research capacity (10)

- Resources
- Tools
- Information (3)

What should be researched?

## Needed knowledge

For what?

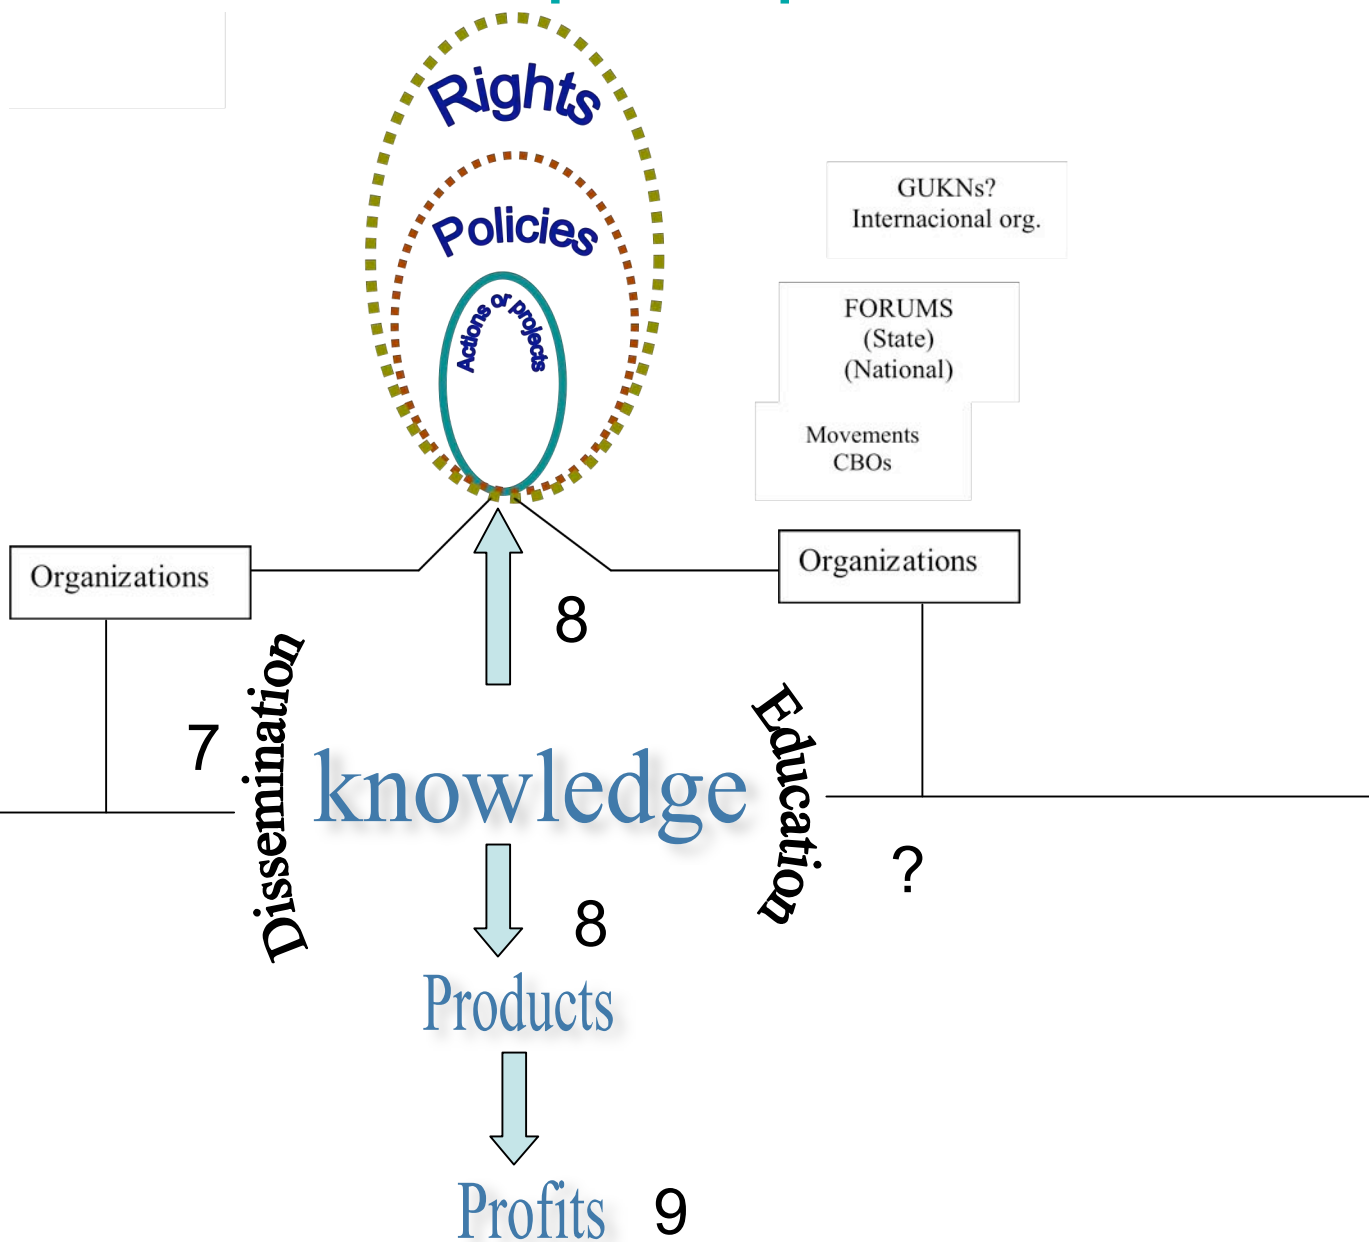

build on achievements (11)

OBJECTIVES (1)

# The eleven principles of KFPE

Public goods

Private goods

## Partnership

Trust 2

Share responsibility 4

Create transparency 5

Shared objectives 1

What knowledge

For what

Products

Transformation

Apply the results 8

Share profits 11

Share information 3

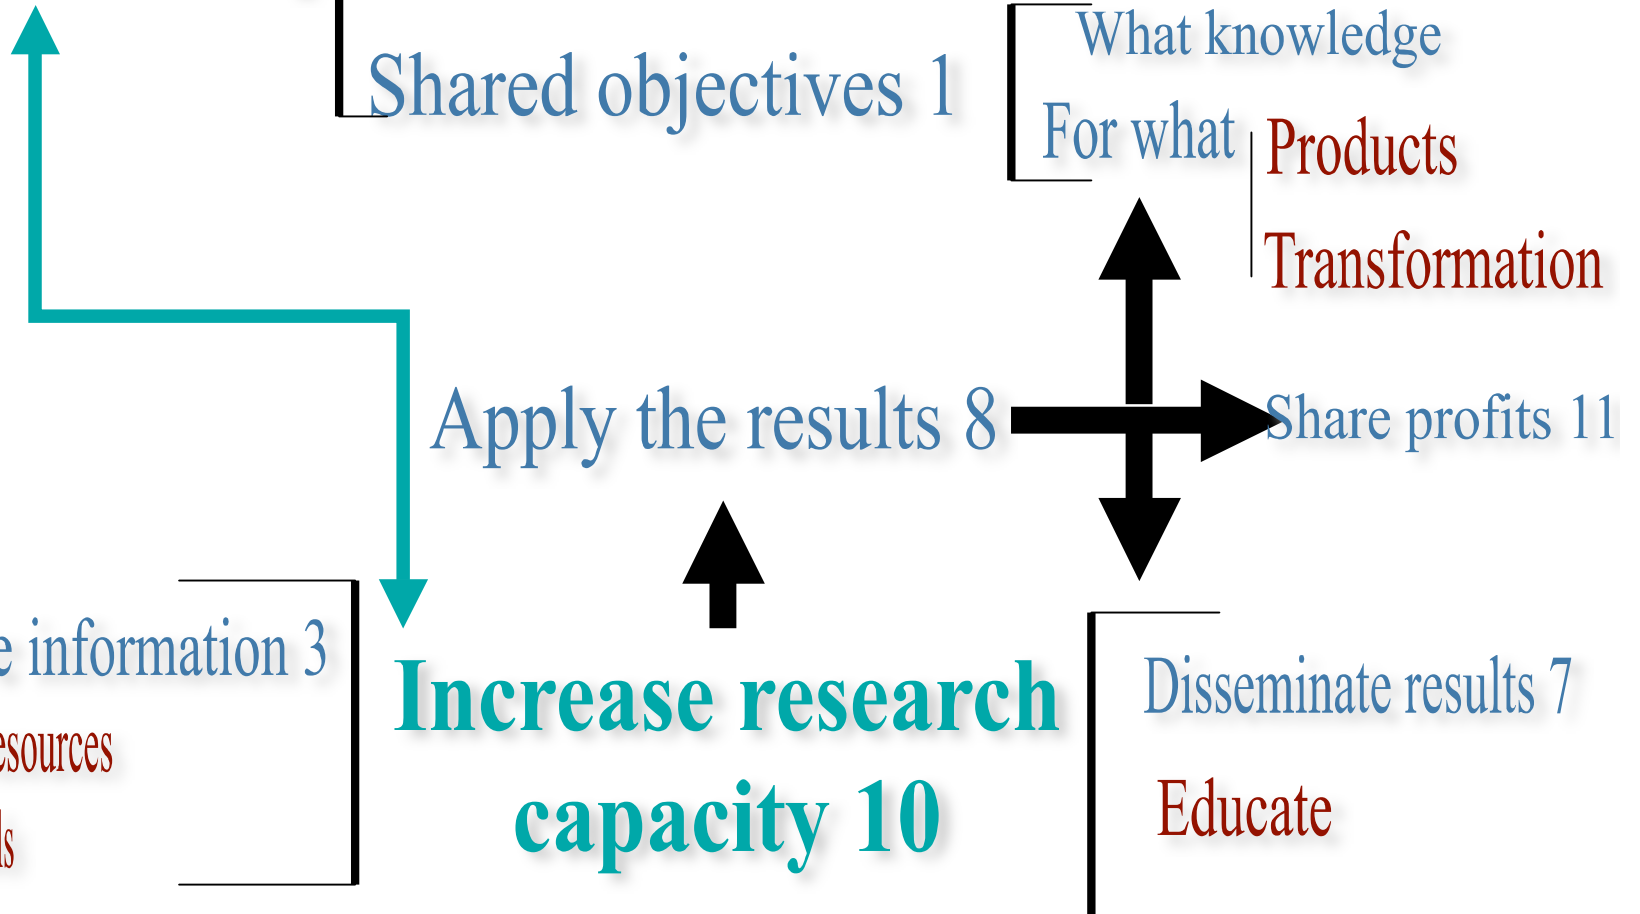

Share resources

Share tools

**Increase research  
capacity 10**

Disseminate results 7

Educate

## Final Remarks

- **Clear quest:**
  - to transform
- Defined **knowledge approach: vertical integration**
- **Ethical** stand regarding **funding** resources
- **Organizational and management factors:**
  - Increase **density of inner institutionalism** if you need to link to networks without losing your identity

# Support from Funding Agencies

**This sort of work is not for sale, so it needs support**

## **1. For research projects-**

**Emerging themes: impacts of migration and climate change  
Comparative analysis on public policies impacts  
(international references)**

## **2. For monitoring activities- to keep track of reality**

## **3. For dissemination and education-**

- 1. Participating in forums**
- 2. Networking**

## **4. For sustainability of human resources: possibilities to sponsor research interests of new generations in this sort of work.**
